Lex Machina enables companies to develop data-driven IP business strategies to succeed in today's challenging legal environment. We provide Legal Analytics that help you win lawsuits, close transactions, and maximize the value of your IP.

Our unique technology crawls millions of pages of IP litigation information to build analytic data sets about parties, law firms, attorneys, districts, judges, and patents. It enables you for the first time, to predict behaviors and outcomes that different legal strategies will produce.

IP-driven companies such as Microsoft, Shire Pharmaceuticals, Qualcomm, eBay, Motorola Solutions, and Yahoo have selected Lex Machina as their tool of choice to help them protect and monetize their IP.

Select Best Outside Counsel

Apply your own criteria to select the best possible outside counsel for a given matter. See information about attorney experience with a specific district or judge, success rates with similar cases, and more. Then use Legal Analytics to get the most from your chosen counsel.

Win Lawsuits

Uncover trends to bolster your litigation strategy. Learn about judge behavior. See average time to termination, outcomes, damages awards, and more. Explore the litigation history of your opposing counsel and evaluate their expertise in a particular matter. Gain insight into settlement rates, win/loss rates, time to settlement, and time to trial for opposing parties and counsel. Review previous arguments and set your strategy based on data.

Strengthen Your Patent Portfolio

Discover how your portfolio compares to others. Explore litigation outcomes of patents, including findings of invalidity, infringement, and unenforceablility. Gain insight into patent holders and their litigation behavior.

Benchmark Your IP Strategy

Get an overview of how different companies approach cases. Benchmark the performance of your company or an opposing party against peer companies. Discover patent litigation volumes, litigated products, patent outcomes, settlement propensities, trial and damages awards.
