

Legal Analytics® Apps

Lex Machina's unique *Legal Analytics Apps* combine instant access to analytic insights with ultimate ease of use. They deliver answers for specific use cases, such as comparing courts, judges, or law firms, assessing cases, crafting motion strategy, exploring damages awards, evaluating patent portfolios, and much more.

Lex Machina is the only provider offering applications, tailored to answering litigation questions, quickly and easily, by leveraging our *Legal Analytics* platform and our underlying data modules.

Compare Courts, Judges, Law Firms, And Parties, Side-by-Side

Parties Comparator

Parties Comparator allows lawyers to compare parties by different criteria, such as litigation volume, performance, and outcomes. For each party being compared, the application shows damages, remedies and findings won and lost.

This app is invaluable for companies to perform peer benchmarking and for law firms to better understand clients and assess prospects.

Courts & Judges Comparator

Courts & Judges Comparator enables attorneys to compare up to four federal districts and judges regarding case loads, timing to key milestones, case resolutions, specific findings, and damages.

Plaintiffs can compare multiple districts prior to filing, to select the one most likely to provide the most favorable outcome in the shortest amount of time. Defendants can make data-driven decisions about whether or not to pursue transfer and, if so, to where.

Law Firms Comparator

Law Firms Comparator enables powerful side-by-side comparison of up to four law firms, with instant display of a broad range of case-specific data. Companies choosing outside counsel, and law firms competing for new business, can now compare actual results produced by law firms in their open and terminated cases.

The app provides insights into each firm's open and terminated cases, the party roles of their clients, and data about case resolutions, damages, remedies, and findings.

"With the new Courts and Judges Comparator, I can instantly compare analytics from multiple districts, on a wide range of issues, at the push of a button."

Craft Winning Litigation Strategy

Attorney Team Analyzer

Attorney Team Analyzer makes it easy to see the shared case history of a team of attorneys. How recently did these attorneys work together and on what cases? Enter up to five attorney names to see their personal case counts, the group's shared case frequency, case type frequency, and a comprehensive list of all shared cases. In-house counsel can use this information to size-up potential outside counsel by seeing how well and how often they've worked together in the past.

Motion Kickstarter

Motion Kickstarter makes it easy to draft winning motions by helping you compare the arguments and motion styles that have been successful before a specific judge. Enter a judge's name and motion type, and instantly view the judge's recent orders on that motion type, as well as the briefing that led up to those orders. Compare granted motions with denied motions to see what's working and what's not.

Early Case Assessor

Early Case Assessor enables you to quickly assess the threat posed by a new case. Enter the name of the plaintiff and the plaintiff's law firm, and immediately get an overview of the plaintiff's litigation history. Did the plaintiff recently file cases against many other defendants like you? Where does the plaintiff typically file suit? How much experience does the law firm have, and what kind of clients do they typically represent.
