

Legal Analytics® for Commercial Litigation

Lex Machina's award-winning *Legal Analytics* platform allows outside counsel and in-house attorneys to predict the behavior of courts, judges, lawyers, law firms, and parties.

Over half of Am Law 100 firms and many large global corporations use *Legal Analytics* to supplement traditional legal research and reasoning with previously unavailable strategic insights that gives them a winning edge.

Now, *Legal Analytics* is available for commercial litigation in federal courts.

The Winning Edge

Legal Analytics provides data-driven insights and trends in commercial case timing, resolutions, damages, remedies, and findings. This information makes all the difference in case strategy and tactics.

Lex Machina helps you answer questions such as:

- § How often – and in which specific commercial cases – have judges in the Southern District of New York found no breach of contract?
- § When Walmart defends a contract or business tort claim in federal court, how often do they settle? When they fight, how often do they win?
- § Which law firms have the most experience opposing Exxon Mobil in federal commercial cases?
- § How many times have punitive damages been awarded in a federal commercial case? What were the specific amounts?

Unique Commercial Litigation Data

Case Tags – Our data includes tags to help you create your specific case list, including breach of contract and business tort tags.

Case Timing – Among other timing analytics, such as median time to dismissal, trial and termination, we now provide time to permanent injunction and summary judgment.

Case Resolutions – Include default judgment, summary judgment, consent judgment, trial, judgment on the pleadings, or judgment as a matter of law, as well as various settlement and procedural outcomes.

Damages – Commercial cases include contract damages, restitution, and tort compensatory, punitive, and enhanced damages.

Findings – Contract breach, existence, rescission, termination, unjust enrichment and contract defense. Business tort conversion, fraud/misrepresentation, misappropriation of trade secret, tortious interference, negligence, tort defense, and defamation/trade libel.

"Lex Machina's Legal Analytics have allowed us to vastly expand the knowledge base which we use to help clients solve their problems. It's a strategic asset to our firm."
