

Legal Analytics® for Securities Litigation

Lex Machina's award-winning *Legal Analytics* platform allows outside counsel and in-house attorneys to predict the behavior of courts, judges, lawyers, law firms, and parties.

Over three quarters of Am Law 100 firms and some of the largest global corporations use *Legal Analytics* to supplement traditional legal research and reasoning with previously unavailable strategic insights that give them a winning edge.

Now, *Legal Analytics* is available for securities litigation in federal court.

Gain Strategic Insights

With Legal Analytics you can gain strategic insights about trends in securities case timing, resolutions, damages awards, findings, and remedies. Focus specifically on violations of the Securities Act and the Exchange Act. Review SEC penalties, approved class action settlements, and more.

Lex Machina's rich securities litigation data enables you to analyze securities fraud class actions, private actions, shareholder derivative suits, and SEC enforcement cases. Our Case List Analyzer enables you to filter the cases that you care about, and generate trends, charts, and tables that you can easily share with your client, or include in your filings.

Set Motion Strategy

Lex Machina allows you to compare motion grant and deny rates as well as motion outcomes so that you can employ the motion strategy with the highest probability of success. Motion Metrics surfaces valuable insights about motion practice in the cases that matter to you.

Curious about how your judge handles motions to dismiss? Review which motions were granted or denied, and read the associated filings to see which arguments succeeded, and which ones did not.
