

## Legal Analytics<sup>®</sup> for Insurance Litigation

Lex Machina's award-winning Legal Analytics platform allows outside counsel and in-house attorneys to predict the behavior of courts, judges, lawyers, law firms, and parties.

Over three quarters of Am Law 100 firms and some of the largest global corporations use Legal Analytics to supplement traditional legal research and reasoning with previously unavailable strategic insights that give them a winning edge.

Now, Legal Analytics is available for insurance litigation in federal courts.

## The Winning Edge

Legal Analytics provides data-driven insights and trends in insurance case timing, resolutions, damages, remedies, and findings. Our case set includes cases alleging breach of an insurance contract and cases seeking a determination of the rights of the parties to an insurance contract.

Whether you want to know at what stage a particular insurer settles cases involving homeowner’s policies, or what arguments have been successful in making claims for double or triple damages, Legal Analytics helps you win more business and win more insurance cases.
