Lex Machina’s award-winning Legal Analytics® platform allows in-house attorneys at banks to assess and oversee outside counsel, as well as predict the behavior of courts, judges, lawyers, law firms, and parties.

Some of the largest and most successful banks in the world use Legal Analytics to augment traditional legal decision making with previously unavailable strategic insights that give them a winning edge.

Find out how Legal Analytics helps in-house counsel at banks develop winning legal strategies, find the best outside counsel, and minimize risk. Leverage our unique Legal Analytics Quick Tools to get instant answers to your litigation questions, with just a few mouse clicks.
How Bank Counsel Succeed Using Legal Analytics

Legal Analytics provides data-driven insights and trends that help you save money, minimize risk, and prevail in court. Many of the most successful corporations in the world, including GM, Facebook, Microsoft, Nike, and Pepsi, are using Lex Machina to craft winning litigation strategies.

Lex Machina’s Legal Analytics allows you to get practice-area-specific insights such as findings, case resolutions, remedies, and damages in 18 different federal practice areas in all federal courts. Additionally, you can use Lex Machina’s Legal Analytics to gain insights into trial resolutions, rulings, and damages in a rapidly growing number of state courts.

Legal Analytics Quick Tools

Lex Machina offers the only Legal Analytics Quick Tools that help you get instant answers to complex legal questions. Here are a few of the available tools:

- **Parties Comparator** lets you assess the litigation behavior of different banks and companies.
- **Courts & Judges Comparator** provides a side-by-side comparison of different venues and judges.
- **Law Firms Comparator** helps you find the best law firm for your case.
- **Early Case Assessor** allows you to get a quick first look at the risk posed by a new matter.

Select the Best Outside Counsel

Want to know who is the best attorney for your matter? Use Legal Analytics to assess the performance of lawyers based on their results. Check a specific firm’s median time to summary judgment in consumer protection matters in the Central District of California. Leverage our Law Firms Comparator to find which of the firms you’re considering has the best track record in a specific practice area in your jurisdiction.

Set Accurate Litigation Budgets

With Legal Analytics, you can easily determine the time to key litigation milestones and set realistic litigation budgets. Use our Courts & Judges Comparator to see how your district compares with other venues and judges. Find out how often Judge Zobel awards attorney’s fees in ERISA cases compared to Judge Kaplan. Analyze your chances of a successful transfer motion to save time and money.

Limit Your Bank’s Litigation Risk

- Explore the litigation strategies of banks similar in size to yours. How does their litigation posture compare to yours?
- Assess the behavior of your opposition. How much experience does your opposing counsel have with consumer protection class action cases? Do they tend to go to trial or do they try to settle quickly? When is the best time to settle in cases like yours?
- Find out how contracts cases resolved in the Northern District of Illinois.
- If your bank lends to law firms, the cash flow needs of your clients can depend heavily on timing and the status of litigation. Find out how long it will take to get repaid.
