Legal Analytics For Class Action Litigation

Every class action case, every class certification outcome, every approved class action damages award, every jury verdict, every opinion/decision, ever. Introducing Lex Machina's Class Action Analytics module.

Lex Machina is Legal Analytics. Lex Machina provides Legal Analytics to companies and law firms, enabling them to craft successful strategies, win cases, and close business. Now, Legal Analytics is available for all class action litigation filed in federal district court.

The benefits of Lex Machina's Class Action Analytics include access to **140,000 cases filed with class claims and $178 billion in approved class settlement awards,** and the documents to see winning strategies and key findings.

Get More Cases
Determine the projected ROI on any class action litigation using Class Action Analytics relevant to your case including your judge, opposing counsel, case type, and timing to key milestones.

Leverage Class Action Analytics in your pitches to prospective clients and secure more business in class action litigation. Cut down on the time spent collecting data to explain why you should be the lead firm. **In 2022, $3.6 billion was spent by corporations on class action defense, which represented 14.4% of their entire legal budget allocations** (per the 2023 Carlton Fields Class Action Survey of 400 Fortune 1000 companies).
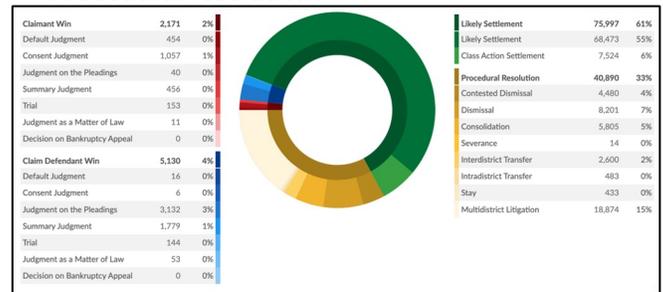

Influence Class Action Outcomes
Employ data-driven insights to negotiate more favorable settlement outcomes for your clients or win outright on a successful dispositive motion.

If you use data to influence even one settlement outcome to be 10% more favorable to your client, this pays for Lex Machina through client retention on future matters.

Use Class Action Analytics To Win
Know your judge's experience and opposing counsel's track record from the **final outcomes** of 125,000 cases filed with a class claim including dispositions such as:
