

Legal Analytics® Quick Tools

Lex Machina's unique Legal Analytics Quick Tools combine instant access to analytic insights with ultimate ease of use. They deliver answers for specific use cases, such as comparing courts, judges, or law firms, assessing cases, crafting motion strategy, exploring damages awards, evaluating patent portfolios, and much more.

Lex Machina is the only provider offering applications, tailored to answering litigation questions, quickly and easily, by leveraging our Legal Analytics platform and our underlying data modules.

Compare Courts, Judges, Law Firms, And Parties, Side-by-Side

Parties Comparator

Parties Comparator allows lawyers to compare parties by different criteria, such as litigation volume, performance, and outcomes. For each party being compared, the application shows damages, remedies and findings won and lost.

This Quick Tool is invaluable for companies to perform peer benchmarking and for law firms to better understand clients and assess prospects.

Courts & Judges Comparator

Courts & Judges Comparator enables attorneys to compare up to four federal districts and judges regarding case loads, timing to key milestones, case resolutions, specific findings, and damages.

Plaintiffs can compare multiple districts prior to filing, to select the one most likely to provide the most favorable outcome in the shortest amount of time. Defendants can make data-driven decisions about whether or not to pursue transfer and, if so, to where.

Law Firms Comparator

Law Firms Comparator enables powerful side-by-side comparison of up to four law firms, with instant display of a broad range of case-specific data. Companies choosing outside counsel, and law firms competing for new business, can now compare actual results produced by law firms in their open and terminated cases.

The Quick Tool provides insights into each firm's open and terminated cases, the party roles of their clients, and data about case resolutions, damages, remedies, and findings.

"With the new Courts and Judges Comparator, I can instantly compare analytics from multiple districts, on a wide range of issues, at the push of a button." — Crowell & Moring
